# Visiting the Doctor for a Check-Up

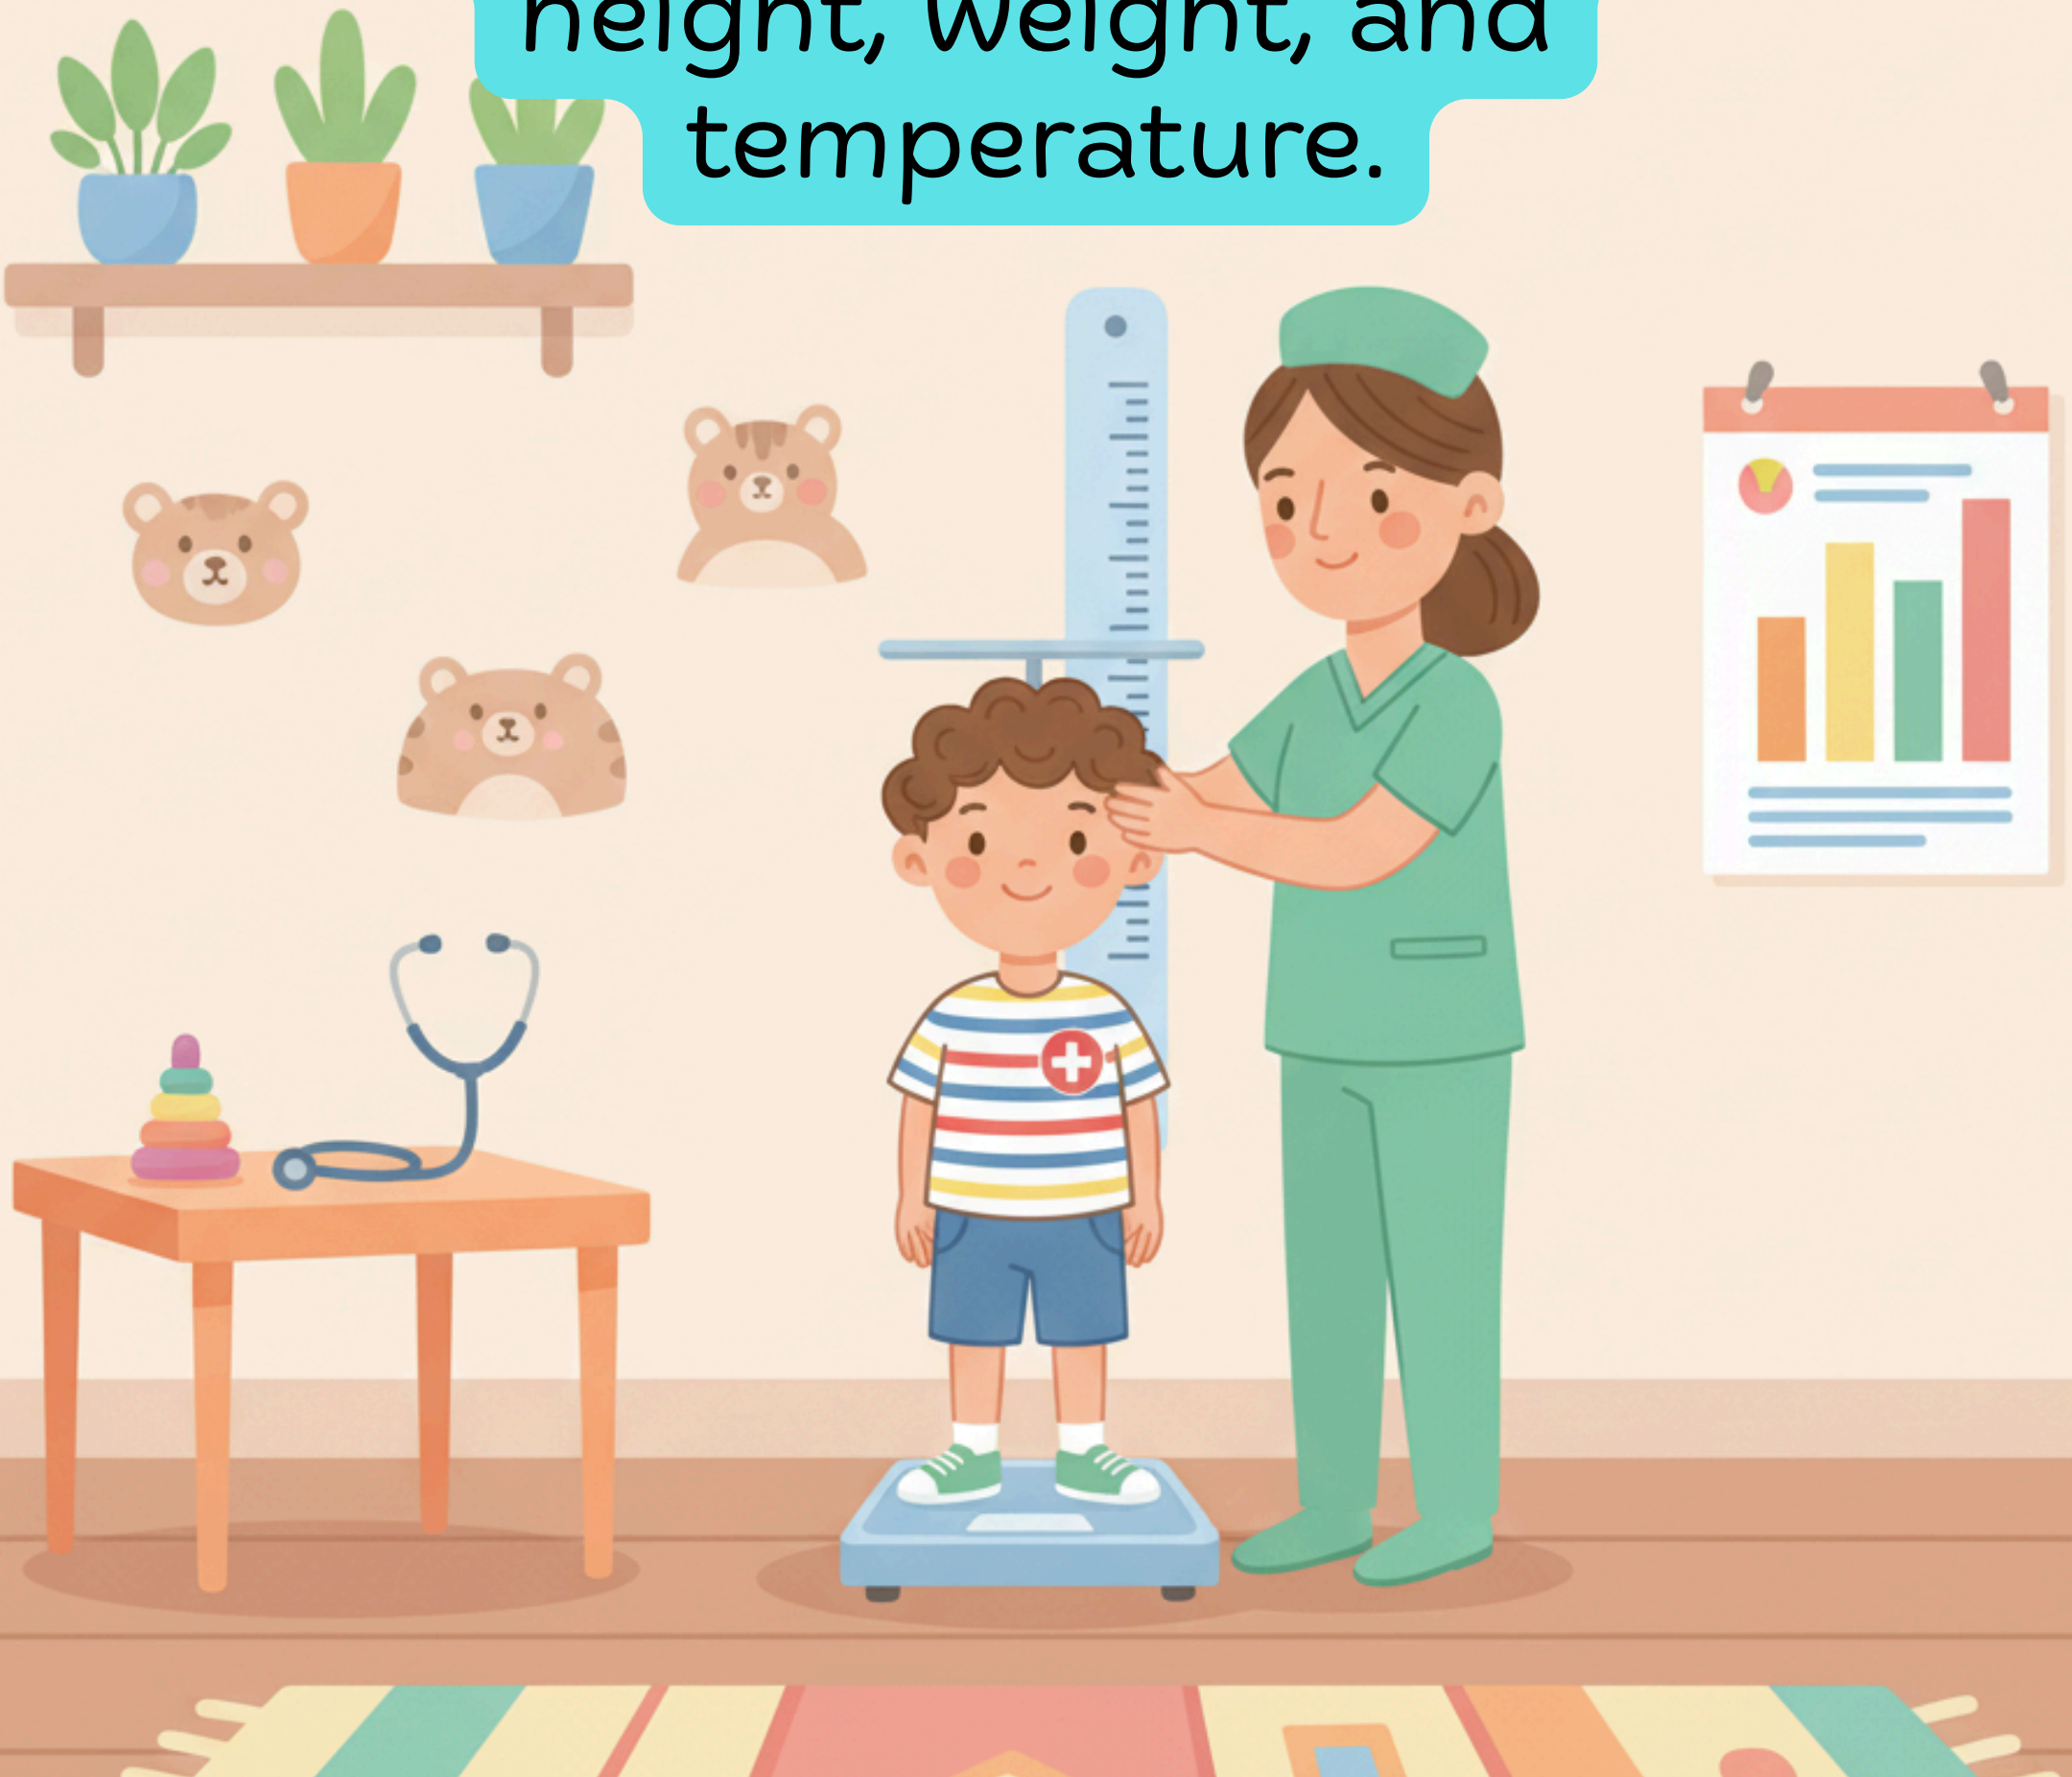

My Check-Up at the  
Doctor

Today I'm going to see  
the doctor for a check-  
up.

The nurse will check my height, weight, and temperature.

The doctor might look in my ears and listen to my heart.

Shots help keep me healthy and strong.

I can hold someone's hand if I feel nervous.

When it's done, I get a sticker or high five!
